

Math and Reading After School Tutoring

- **Starts Tuesday, September 18th**
- Grades 2 thru 8 (Oakwood students only)
- Classes Tuesdays & Thursdays from 4 to 5:30 p.m.
- Students bused after school to classrooms at Mt. Zion
- **Limit: 30 Oakwood students**
- No Charge
- Fruit juice and snacks will also be available free of charge

We know Oakwood parents care about their children's education. That's why Oakwood Village will be the first community in Northeast Ohio to offer an "After School Tutoring Program" free to Oakwood students at no expense to our taxpayers. This program is entirely financed by an Oakwood business (King Group) from a deferred commitment made by this company in 1997. The Mayor and his Administration are happy to see this program finally being implemented.

Students in Grades 2 thru 5 will concentrate primarily on reading while students in Grades 6 thru 8 will concentrate primarily on math

Assessments will be given first and then a curriculum

will be set up based on the student's skill and functional needs. Your child's learning style is also taken into consideration when developing their Educational Action Plan.

Proven Results—getting students where they need to be and beyond
Personalized Programs—"One Child at a Time Focus" with goals set so students and parents can see their incremental progress
Low Student/Teacher Ratios
Foundation Building Focus—helps students develop the core skills they need for a lifetime of success in learning

Math

- Uses specialized "Skill Builder & Back to Basics Math Program"
- Covers all core math concepts including fractions, decimals, algebra, geometry
- Successful program for Ohio Achievement Tests (OAT)

Reading

- Covers all core reading concepts including phonics, fluency, vocabulary and reading comprehension
- Designed to help students develop a love of reading
- Students will increase their reading levels by 1.3 grades in less than 90 days.

**Please call Anita in the Mayor's Office at 232-9988 to register your child.
30 spots will fill up fast—Don't be closed out !**
