ORDINANCE NO. 2020-76

INTRODUCED BY MAYOR AND COUNCIL AS WHOLE

**AN ORDINANCE AUTHORIZING THE ACQUISITION OF
TWO FORD EXPLORER VEHICLES, A TRUCK, PLOW,
RADIO AND LIGHT KITS FOR USE IN THE FIRE
DEPARTMENT FROM THE STATE OF OHIO,
DEPARTMENT OF ADMINISTRATIVE SERVICES,
STATE PURCHASING AND DECLARING AN
EMERGENCY**

WHEREAS, pursuant to the provisions contained in Section 735.053 of the Ohio Revised Code, the Village of Oakwood deems it cost effective to purchase certain police cars and other vehicles from the State of Ohio through its designated vendor.

NOW THEREFORE, BE IT ORDAINED by the Council of the Village of Oakwood, County of Cuyahoga, and State of Ohio that:

SECTION 1. The Mayor be and is hereby authorized and directed, upon the approval of the Board of Control, to enter into a contract on behalf of the Village of Oakwood with the State of Ohio, Department of Administrative Services - State Purchasing, through its designated vendor(s), Liberty Auto Group, for the purchase or lease of the following vehicles for use in the police department:

<u>QUANTITY</u>	<u>ITEM</u>	<u>PRICE</u>
2	2020 4-DR, 4WD XLT FORD EXPLORERS	\$88,810.00

<u>QUANTITY</u>	<u>ITEM</u>	<u>PRICE</u>
1	2021 CHEVY SILVERADO 2500	\$37,981.00

<u>QUANTITY</u>	<u>ITEM</u>	<u>PRICE</u>
1	8 FT SUPER DUTY COMPLETE PLOW	\$5,295.00

<u>QUANTITY</u>	<u>ITEM</u>	<u>PRICE</u>
1	RADIO AND LITE KIT	\$1,200.00

SECTION 2. Council hereby authorizes the expenditure of an amount not to exceed \$133,286.00 to effectuate the provisions contained in Section 1 hereof. The Director of Finance be and is hereby authorized and directed to issue vouchers in the amounts and for the purposes as expressed in Section 1 hereof, said amounts to be charged to the Fund 401.7799.55120 Capital Lease Fund.

SECTION 3. That actions of this Council concerning and relating to the passage of this legislation were adopted in an open meeting of this Council and that all deliberations of this Council and of any of its committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

SECTION 4. This Ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health, safety and welfare of the inhabitants of the Village, the reason for the emergency being that the same relates to the daily operation of a municipal department, therefore, provided it receives two-thirds ($\frac{2}{3}$) of the vote of all members of Council elected thereto, said Ordinance shall be in full force and effect immediately upon its adoption by this Council and approval by the Mayor, otherwise from and after the earliest period allowed by law.

PASSED:

September 22, 2020

Johnnie A. Warren, President of Council

Debra L. Hladky, Clerk of Council

Presented to the
Mayor

September 23, 2020

Approved:

September 23, 2020

Mayor, Gary V. Gottschalk

I, Debra L. Hladky, Clerk of Council of the Village of Oakwood, County of Cuyahoga and State of Ohio, do hereby certify that the foregoing Ordinance No. 2020-76 was duly and regularly passed by this Council at the meeting held on the 22 day of September, 2020.

Debra L. Hladky, Clerk of Council

POSTING CERTIFICATE

I, Debra L. Hladky, Clerk of Council of the Village of Oakwood, County of Cuyahoga and State of Ohio, do hereby certify that Ordinance No. 2020-76 was duly posted on the 23 day of September, 2020, and will remain posted for a period of fifteen (15) days thereafter in the Council Chambers and in not less than five (5) of the most public places in the municipality as determined by the Council of the said Village.

Debra L. Hladky, Clerk of Council

► SpectraLux® ILS Low-Profile | Interior Warning Lights

FEATURES

- Available in two styles; Center-Focused and Advanced Off-Axis
- SpectraLux®, multicolor LED technology is configurable in combinations of Amber, Blue, Green, Red or White
- Solaris® LED reflectors provide the highest optical efficiency
- ROC (Reliable Onboard Circuitry™) technology reduces potential failure points
- Models available with FS Convergence Network for "plug-n-play" installation and programming or a discrete cable
- (26) built-in flash patterns
- Vehicle-specific shrouds prevent flash-back and are available for most standard police vehicle applications
- Multi-vehicle kits offer flexibility for mounting in a large variety of vehicles
- White LEDs can be utilized as takedowns and flood lighting
- Slimmer shrouds offer less windshield obstruction for increased officer safety
- Available in split-front models (8-LED reflectors); passenger side only (4-LED reflectors); driver-side only (4-LED reflectors), Rear Hatch (8-LED reflectors), and Rear Deck (8-LED reflectors)
- Five-year warranty

Warning and traffic clearing LED light built for first responders

Ideal for undercover and highway police vehicle applications, the SpectraLux® ILS Low-Profile offers a smaller and tighter fit to the front headliner with the same advanced warning, takedown, and flood lighting capabilities as a full-size light bar. The shroud top-covers hide PC boards creating a more stealth and finished look, and the fit of the lighting system reduces windshield obstruction which improves the police officer's visibility.

Front models of the SpectraLux ILS Low-Profile are available in split front, passenger side, and driver side models. Vehicle specific shrouds are available for the most common first responders and work truck vehicles, and slotted brackets and side shields in the multi-vehicle model offer flexibility to mount the ILS in a larger variety of vehicles. Rear Deck and Rear Hatch models feature low-profile design and vehicle specific shrouds allowing for a tight fit to the back windshield of the Dodge Charger or upper rear hatch of the Ford Police Interceptor Utility and Chevrolet Tahoe.

Stealthy appearance with eye-catching results

From inside the vehicle, the low-profile SpectraLux ILS blends into the headliner of the vehicle. When illuminated, the Solaris® LED reflectors provide superior optical performance outside the vehicle. With SpectraLux technology, while in operation a single LED light source can change color combinations from Red, Amber, Blue or White. White LED options can be used as takedowns, work lights, or act as an impressive flood light, and Amber LED options in rear models can be used as an "Amber-override" for directional lighting.

SpectraLux

Simple installation and programming

All SpectraLux ILS Low-Profile models are equipped with the FS Convergence Network for simple "plug-n-play" installation and programming. These units are compatible with FS Convergence Network sirens such as the SmartSiren® Platinum, and they are programmed with (26) built-in flash patterns that can remain in sync with other light head flash patterns or operate independently.

Standard programming for front models includes left, right, and full flood, takedowns, cruise mode, front cut-off, intersection mode and dimming. Standard programming for rear models includes rear cutoff, intersection mode, dimming, SignalMaster, directional warning, and cruise mode.

Advanced Off-Axis Model (SIFZ) Versus Center-Focused Model (SIFM)

The SpectraLux ILS Low-Profile is available in two models, advanced off-axis and center-focused. Both models offer the same capabilities and incorporate the same technologies. The Advanced Off-Axis SpectraLux ILS Low-Profile utilizes offset Solaris reflectors that provide more light output at the critical intersection angles to the front and sides of the vehicle. The Center-Focused ILS utilizes all forward-facing Solaris reflectors that concentrate all the light output to the front of the vehicle. Forward-facing reflectors allow the ILS Low-Profile shroud to be smaller and mount tighter to the headliner than the Advanced Off-Axis. The Center-Focused model also offers one-piece mounting brackets; whereas most Advanced Off-Axis models have two mounting brackets.

SIFM models*
Reflector layout for Center-Focused

SIFZ models*
Reflector layout for Advanced Off-Axis

**Shrouds shown are the Ford Interceptor Utility; size difference varies between vehicles.*

Specifications

Voltage	13.6 VDC (11 VDC minimum)
Current draw (split front and rear models)	8 A
Current draw (passenger/driver side only)	4 A
Operating temp	-30°C to +65°C
Physical dimensions (including shroud)	Varies by model
Ship Weight	Varies by model

MPS600U

MicroPulse™ Ultra | External Mount/Perimeter Lights

FEATURES

- Superior warning with high-powered LEDs
- Low-profile design offers wider range of mounting locations
- 18 (MPS3U and MPS1220U), 23 (MPS6U and MPS620U) or 25 (MPS12U) selectable flash patterns
- Suitable for external and/or internal mounting applications
- Includes black bezel and gasket, optional bezels available in Chrome or White
- Single/multi-unit synchronization
- Available in single, split, and dual color models
- Steady burn models are available for use with the Pathfinder Siren or other external flashers
- Three-year warranty

APPROVALS

- All models are IP67 rated, moisture and dust proof

MicroPulse Ultra 3

- SAE J845, Class 1 (Amber, Red, Blue, White)
- SAE J595, Class 1 (Amber, Red, Blue, White)

MicroPulse Ultra 6 — Split and Dual Color

- SAE J845, Class 1 (Amber, Red, Blue)
- SAE J595, Class 1 (Amber, Red, Blue)

MicroPulse Ultra 12 — Split and Dual Color

- SAE J845, Class 1 (Amber, Red)
- SAE J595, Class 1 (Amber, Red)

Highly Effective Ultra Slim Warning Light

MicroPulse™ Ultra models have a low-profile design that offers a wider range of mounting options to fit various applications. The advanced high-output LED lighthouse can be programmed to operate as a single unit or in synchronization with multiple MicroPulse lighthouses. Built-in flash patterns enable multiple vehicle perimeter lights to be either synchronized in the same pattern or in opposite sequence.

MicroPulse Ultra Steady Burn models are intended to be flashed with the Pathfinder Siren or other external flasher. The combination of the Steady Burn models and the Pathfinder Siren allow the Pathfinder to control lights around the vehicle by utilizing flash patterns in the siren, syncing and alternating light heads, and dimming light heads.

Built to Stand Up to the Most Punishing Conditions

The MicroPulse Ultra lens is made of UV resistant polycarbonate to protect against harsh conditions. Models include a fully encapsulated water-proof housing, which provides a barrier against moisture and condensation. All MicroPulse Ultra perimeter lights are backed by Federal Signal's comprehensive three-year warranty.

A Versatile Solution for Supplemental Warning Light Application

Suitable for external and/or internal mounting applications, the MicroPulse Ultra comes in many colors, including Amber, Blue, Green, Red and White, as well as split-color and dual-color combinations. Models come standard with a black bezel and are also available with an optional chrome or white bezel.

MicroPulse Ultra is only 0.35" thick

► MS4000 | Mini-Siren

FEATURES

- Mini-Siren with Intersection clearing tones
- Faceplate switching or remote control style
- Ideal for undercover and administrative vehicles
- Tones included – Wail, Yelp, Priority, Manual (peak and hold) and Air Horn
- 100 Watt Class A and SAE sound output Federal Signal speaker capability
- Output short circuit protected – replaceable fuse
- Three-year warranty

APPROVALS

- Meets Class A requirements for sound output when paired with one Federal Signal 100 Watt speaker

Efficient and economical traffic clearing mini-siren

MS4000 offers value-packed, reliable performance with effective traffic clearing capability. Reliability is increased and operating temperature is decreased in the design of the MS4000 with the use of advanced rail circuitry and low-loss FET design arrangement.

Versatile and compact siren with built-in features

MS4000 mini-sirens provide 100 Watt output and meet Class A requirement when paired with any Federal Signal speaker. The mini-siren can operate from any 12-volt negative ground vehicle electrical system. It is protected against failure models, including reversed polarity, by a fuse that can be replaced without tools.

The MS4000 series comes with its own bracket and can be mounted virtually anywhere due to its compact size and lightweight construction.

Simple siren activation

MS4000 can be powered via the vehicle's power center or directly from the vehicle's battery. WAIL, Yelp, Priority, Manual, and Air Horn are all standard on the MS4000. Two rocker switches control all the siren functions. One switch controls AIR HORN, MANUAL while the other controls WAIL/YELP. The AIR HORN/MANUAL switch rests in the neutral (center) position and activates a function when momentarily placed into the up and down position. The WAIL/YELP switch is a three-position switch with the center position being neutral.

Built-in intersection-clearing feature

A built-in intersection-clearing feature adds effective traffic management capability at potentially hazardous crossings. When the MS4000 is activated and in the WAIL position, depressing the momentary switch to the MANUAL position produces an eight-second Yelp tone. When the MS4000 is activated and in the YELP position, depressing the momentary switch to the MANUAL position produces and eight-second Priority tone.

Ideal for undercover officer and volunteer firefighters

The MS4000U is designed especially for the undercover police officer and volunteer firefighters. Siren functions are activated in the same manner as the standard MS4000, but the MS4000U mini-siren is activated with switches mounted on a small, remote switch panel.
